

COMPANY OVERVIEW

Smartech Security, Corp is a Florida electronic security integrator, incorporated in 2006 and headquartered in Doral. We design, install and support video surveillance, access control, intrusion detection and video intercom systems for schools, public agencies and multi-site operators. Every device is drawn before it is installed, and the scope is locked in writing before work starts.

CORE COMPETENCIES

- **Video surveillance:** field-of-view design, cameras, recording and VMS, network coordination.
- **Access control:** door schedules, readers and locks, credentials, schedules and roles.
- **Intrusion detection:** zoned perimeters, door contacts, interior detection, video verification.
- **Video intercom:** entry and answering stations, door release, visitor path design.
- **Service:** remote video retrieval and credential management, repair and installation, system takeovers.

DIFFERENTIATORS

- Designed before installed: survey, drawings and field-of-view studies before pricing.
- Locked scope: device schedule, line-item bill of materials and written exclusions.
- One accountable team for four systems, from survey to support.
- Manufacturer named on every line, for Section 889 review when required.
